

Student Device Bundle

Digital Skills for School, Life & Beyond

Today's students are growing up in a digital world – but many still lack the tools, structure, and confidence to use technology meaningfully in their education.

The Learning Wallet is more than just a student device. It's a full digital learning package designed to build essential skills like:

- Digital communication
- Self-directed learning
- Creative project work
- Online safety and responsible use

Whether it's researching for a project, building a digital portfolio, or collaborating with classmates, students need structured access to reliable tools that mirror the tech they'll use in college and the workplace.

That's where the Learning Wallet comes in – supporting students with the right hardware, the right software, and the confidence to succeed in a connected world.

Why Schools Are Choosing Learning Wallet

- ✓ Aligned with Senior Cycle Reform and the Digital Strategy for Schools
- ✓ Designed for structured, secure 1:1 device use in class and at home
- ✓ Reduces workload for teachers while supporting digital skills development
- ✓ Supports equity and accessibility in digital learning
- ✓ Empowers students to develop real-world, transferable skills

What's Included in the Student Bundle

- 2-in-1 Student Laptop (ASUS or Dell, Windows or ChromeOS)

5 Years

- Protective Case
- 5-Year Warranty & Full Tech Support

- Full Device Management & Safety Controls

- Teacher Dashboard & Classroom Controls

- Pre-Loaded Digital Learning Tools

tutorials 365

Digital Resource hub for Classroom Revision

Junior and Senior Cycle revision lessons in core subjects. Short, bite sized videos help support knowledge retention – with regular knowledge checks to boost engagement.

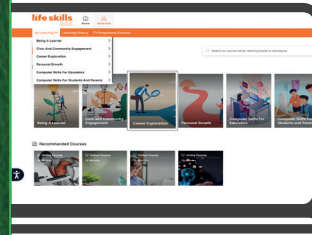

Created by teachers supercharged with AI

- ✓ Over 2,000 on demand exam study lessons in up to 20 subjects designed specifically for Leaving Certificate and Junior Certificate revision.
- ✓ Created for use in the classroom as a group revision workshop, or at home as part of a flipped classroom approach.
- ✓ Built in assessments to test knowledge retention and allow for automated student progress tracking.

life skills 365

Ideal for Transition Year Students

Empowering Students with Skills for Life

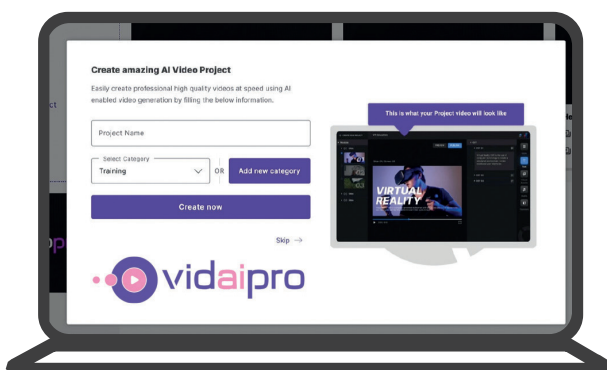

Life Skills 365 is a library of on demand course content to help learners develop additional skills outside of their school work, and support them in their extra curricula activities and career progression.

On Demand Courses for Life Beyond School

- ✓ Our on demand library of online courses covering everything from Interview Skills, First Aid, Environmental
- ✓ Awareness, Customer Service, Health & Safety & more.
- ✓ Each course is broken down into bite sized modules with mini assessments throughout and an exam at the end of each course.
- ✓ Students gain accreditation and printable certificates for each course they are successful in.

vidaipro

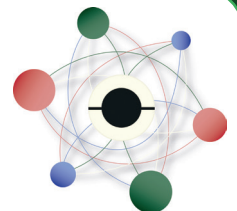

Create video lessons from text in minute

Produce engaging, high quality video lessons in an instant. Watch as Vidaipro uses AI to transform your text document it into visually compelling course content, project work, and much more in just minutes.

SOCIAL TIES

A secure community app just for your school

Consolidate all of your school's publishing and communications, and supercharge it with engaging, interactive content that all of your school's community can get involved in.

SocialTies allows you to publish all of your students' important moments quickly and easily to the audience that matters most.

Unlike the standard social media platforms, your school's Social Ties app can only be accessed by teachers, parents, students and chosen family members - allowing you full control over user access.
