Transforming Student Projects into Powerful Digital Stories

Vidaipro is a creative digital tool that allows students to turn written assignments, research projects, and classwork into dynamic multimedia presentations. Designed specifically for Irish post-primary education, it supports project-based learning and helps students build confidence in digital communication and storytelling.

For teachers, Vidaipro offers an easy-to-use solution that enhances creativity and engagement in the classroom - all while supporting the new assessment requirements under **Senior Cycle Reform**.

Key Features:

- **Video creation from text** – students can transform essays or reflections into video narratives in minutes
- **AI-assisted content prompts** – helps guide structure and creativity
- **Templates and themes** – accessible for all learning levels
- **Voice-over and caption options** – supports diverse learning needs and abilities
- **Easy sharing and submission** – ideal for portfolios and project-based assessment

Why Schools Choose Vidaipro:

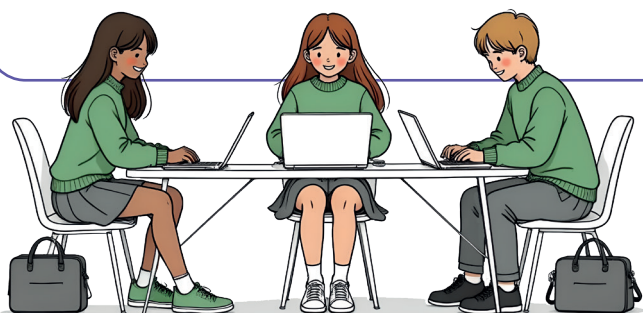

- **Builds real world digital skills for college and work**
- **Encourages active learning and critical thinking**
- **Strengthens student voice, creativity, and confidence**

Benefits for Teachers:

- **Supports project-based learning** across multiple subject areas
- **Complements TY and Senior Cycle curriculum** with a focus on creativity, research, and communication
- **Empowers students to present work in new ways** beyond traditional written formats
- **Reduces time spent on presentation coaching and tech support**
- **Safe, school-managed platform** aligned with digital safeguarding policies

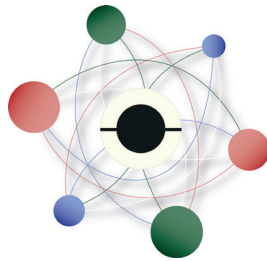

Ideal For:

- **Transition Year projects and digital portfolios**
- **Senior Cycle assessment and coursework submission**
- **Student led presentations and classroom storytelling**
- **Inclusive education and differentiated assignments**
- **Facilitates the use of AI for in a secure environment**

A Safe, School Branded Space for Student Connection and Celebration

Social Ties is a secure, school managed communication platform that allows schools to share key updates, celebrate student achievements, and strengthen school culture in a digital world. Designed to offer the benefits of social media without the risks, Social Ties gives your school its own private, branded space for positive engagement.

For school leaders, it provides a powerful way to connect with students, staff, and families - without relying on third party platforms.

Key Features:

- **School branded digital space**
- **Publish news, events, and student success stories**
- **Fully secure and administered by the school**
- **Mobile friendly and accessible on all devices**
- **Live streaming of school events** - Share school plays, sports games, awards nights, and more in real-time, directly through the Social Ties platform

Benefits for School Leaders:

- **Promote a positive school identity** and culture
- **Streamline communication** with students and families
- **Avoid social media** while maintaining digital connection
- **Retain full oversight and moderation** within your school environment
- **Increase visibility of initiatives, events, and student voice**

Real-World Learning Opportunities for Students

Social Ties isn't just for communication - it's a platform for active learning. Transition Year students can be encouraged to create and publish content for the platform, giving them real-world experience in:

- **Marketing and digital communications**
- **Event promotion and school journalism**
- **Responsible content creation and digital citizenship**

These experiences help build confidence and transferable skills relevant to careers in media, PR, journalism, and business.

Ideal For:

- **Sharing key announcements and calendar updates**
- **Showcasing student work, awards, and extracurriculars**
- **Live streaming major events like sports days and school musicals**
- **Building digital literacy through hands-on student publishing**
- **Creating digital noticeboards for clubs, TY, LCA and more**
